To: Steve Broslavick, Acting Chief,
Hazardous Waste Section

From: Lynda Ramsey, Northeast District Office

Date: February 7, 1991

Subject: Pace Laboratories
2005 West 103rd Terrace
Leawood, Kansas
EPA Identification Number KSD065774929

On February 6, 1991 I visited the above location to determine the status of this facility.

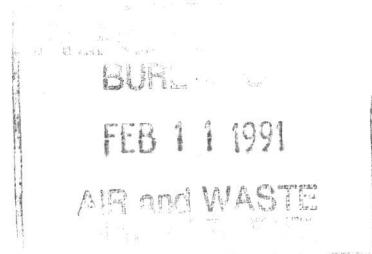

This location is vacant, no waste was visible at the site. I spoke with Jim Harpool, the contact person for the building. Mr. Harpool stated that Pace Laboratories moved out in June, 1991. Mr. Harpool also stated that Pathmark Development Group, owners of the property had an environmental audit conducted at this location and the results were satisfactory.

Based on the information obtained and the inspection I recommend that this location be reclassified as a closed facility.

If you have any questions concerning this information, please call me at the Northeast District Office.
